1905

## NOTE

---

The fifth edition of the *Directory of Living Graduates and Former Students* has been thoroughly revised and includes all corrections received up to the date of publication (May 1, 1906). All information concerning errors and omissions, or changes of addresses, will be gladly received by the Secretary of the University and noted in the card catalogue in his office.

The names of all graduates of the University not known to be dead are given in the *Directory*. It has been most difficult to obtain authentic information concerning the ex-members of the various classes, but the names of those believed to be living, with their last known addresses, have been placed at the foot of the classes to which they belonged while members of the University. Additions or corrections for this list will be especially welcome.

In order to facilitate finding the names of all Princeton men in any locality, a geographical arrangement of the alumni has been included in the present edition. In this "locality index" the names have been grouped under the various countries, states and towns, that appear in the arrangement by classes. An alphabetical index, including all names, may also be found on the last pages of the book.

The names of the class secretaries have been printed in heavy-faced type. The figures at the bottom of each class list represent the total number or graduates, and the number now living, respectively. The occupations of the alumni have been indicated, where possible, by abbreviations placed before their names. A table of these abbreviations will be found on the succeeding page.

CHARLES W. McALPIN,  
*Secretary of the University.*

May 1, 1906.
